Crossfield.

**Robert Ure M.A., L.L.B.**

Barriester, Solicitor, Notary,  
has opened a Law office in Cross-  
field, where he attends every day  
for the general practice of the Law.  
Farm Loans and Insurance.  
Phone 53, Crossfield.

**DENTIST**

**Dr. HARVEY D. DUNCAN,**  
409-410 Herald Building, Calgary.  
has opened a Dental Office over Havens'  
Garage, Crossfield, for Friday and Sat-  
urday of each week, employing the  
latest Dental methods in all its  
branches.

**Local and General**

At the recent Calgary Spring  
Show we noticed the name of Mr.  
J.H. Ousel, Crossfield, as winner  
of the 1st prize with his Bull under  
18 months, Husky Lad 5th.

We also noticed Mr. G.K. Allon-  
by's name as a seller in the Short-  
horn class, procuring \$260 for his  
bull Popular Majesty, the Domin-  
ion Live Stock Branch being the  
purchasers.

Judging from the sale of tickets,  
a record crowd is anticipated at the  
Gyro Nigger Minstrels, on Friday,  
May 8th. Special seating accomo-  
dation is being arranged for some  
275 people, so that if one has not  
been lucky enough to obtain a re-  
served ticket, there are still lots of  
seats at general admission prices.

For Sale.—Crossfield grown Per-  
ennials, in aid of the Union Church  
Piano Fund. Leave orders with  
McKory.

Mr. John Reichenbechen a new  
arrival in Crossfield is busy build-  
ing himself a house north of town.

In addition to the splendid fea-  
ture "COMING THROUGH" to be  
shown at Havens Hall, Thursday,  
May 7th, Mr. Sharp will also show  
a very interesting and educational  
picture entitled: "Postal Service  
Across Canada" released by the  
Postal Department of Canada.

Everybody should see this!  
Mr. C. F. MacDonald has recent-  
ly purchased a quarter section of  
land just south of Crossfield from  
Mr. G. T. Jones, he is busy putting  
some of same in crop at present,  
and intends to do some building  
shortly.

Ticket holders for the Gyro Nig-  
ger Minstrel Show please be in your  
seats by 8.15 p.m. sharp.

"Made in Canada under Government supervision."

## Canada's Child Immigrants

The tide of immigration is again flowing Canadawards and prospects are that the number of incoming settlers this year will be in excess of those for any year since the outbreak of the war. It is also fairly evident that much greater care is being taken in the selection of immigrants by officers of the Department of Immigration and Colonization overseas than was formerly the case, with the result that there is a fairer chance of those actually arriving in this country making a success of their venture.

Better machinery for the placing of settlers from the British Isles and assisting them in making a real start has been effected under the arrangements arrived at between the Canadian and British Governments through the medium of the Overseas Settlement Committee. There is reasonable hope, therefore, that while there may be an increase in numbers, there will be a still more striking improvement in the quality of our new settlers and in the probabilities of their success in Canada.

Especially satisfactory is the increased interest being taken both in Great Britain and in Canada in the subject of child migration and settlement in this Dominion. Last year a delegation was appointed by the British Government, on the request of the Canadian Government, to visit Canada and obtain first-hand information on this very important aspect of immigration, which delegation has made an instructive and constructive report. At the same time the Committee of the Social Service Council of Canada on Immigration and Colonization concentrated its attention last year upon the question of child and juvenile immigration, and it, too, has made a comprehensive report on the subject.

Unquestionably there is much to be said both for and against child immigration, although it is probably much easier to advance objections than it is to cite cogent reasons in support of such immigration, but the conclusions reached by both the investigating bodies above referred to appear to favor such immigration within reasonable limits, providing necessary care is taken in the matter of selection of these young immigrants, and proper supervision undertaken after their arrival in Canada, first in the matter of placement in foster homes or as apprentices, and later that they are protected and assisted until well established in Canada.

In support of child immigration there is the definite conclusion of the British delegation that the prospects for these boys and girls in Canada are better than they would have been had they remained in the United Kingdom. There is the further fact that Canada needs population, and that it is the desire of most Canadians that a preponderant number of immigrants should be of British birth. Then there is the argument that these children will more easily become adapted to Canadian ways and more readily absorbed into the life of the community than would be the case with those more advanced in years.

On the other hand it is urged that as many of these children are "Poor Law Children" who have become charges of Boards of Guardians through poverty or other failure of the home, or who have been committed to industrial schools for offences, or are orphans or "under-privileged" children whose homes are unsatisfactory for one cause or another, they constitute a real menace to Canada as future citizens and the parents of Canadian-born children.

The responsibility for final approval of children to be emigrated to Canada rests, however, with the Canadian Government officials in England who have it in their power to reject any child recommended for emigration. It follows, therefore, that if proper inspection and examination takes place and close inquiry made into the antecedents of each child, much of the danger to be apprehended from the above causes can be avoided.

Both the British and Canadian investigating bodies are unanimous in recommending against the immigration of very young children and they are agreed that only boys and girls who have reached the school-leaving age should be allowed to emigrate, except, of course, those who are accompanying their parents.

It is likewise the opinion of the Canadian investigating committee that after these children reach the age of eighteen, and are then discharged from their apprenticeship, it is still necessary that some plan of supervision, protection and helpful assistance be provided by the Department of Immigration if they are not to fall by the wayside instead of becoming happy and successful citizens, an asset rather than a liability to the Dominion.

## British Capital Available

Real Enterprises Will Have Plenty of Investors

"English visitors are sensible people and are unlikely to visit upon genuine Canadian enterprises their legitimate grievances in connection with Grand Trunk matter."

This is the remark of the Financial Times, in connection with statements regarding Canadian mines, made by Dr. McInnes Bell, just before his departure for Canada, which have been largely used in the British financial press. Bell and his colleagues have an enviable reputation for energetic development by straight and fair financial methods.

In the course of an interview Dr. Bell gave a satisfactory account of the Keeley and Vipond developments in Ontario. He denied that Vipond had been acquiring neighboring property.

## BLEMISHES OF THE SKIN

Are Proof the Blood is in a Weak and Watery Condition

One of the surest signs that the blood is out of order is the pimples and unsightly eruptions that break out on the face or body. The same condition is indicated by a redness of the face, itching, and a dryness of the skin. You cannot get rid of these troubles by the use of purgative medicines, or by the use of any other means. The only way to get rid of these troubles is to get the blood in a healthy condition. The blood is shown to be out of order in a tonic which will restore its misadventures and lead to a healthy and red. For this purpose there is no other tonic can equal Dr. Williams' Pink Pills. Every one of which helps enrich the blood, drives out impurities, and brings a new feeling of health and energy. My complexion was sallow, I had no strength, feeling very weak and languid. My neck was full of lumps called scrofula, and at times they were very painful. After trying several so-called blood medicines, Dr. Williams' Pink Pills were recommended to me and I got half a dozen boxes. After taking them I found a decided improvement in my appearance, and to my joy the lumps were disappearing from my neck. I am now in the treatment, and finally the only sign left of the trouble was a scar on my neck where one of the swellings broke. Since that time I have been in robust health and heartily recommend Dr. Williams' Pink Pills to any suffering from impure blood.

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

One New York milliner has developed a profitable business by renting hats to women for special occasions.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves its credit. It is a tonic. It has to its credit thousands of cases which other preparations had failed to benefit. It brings relief to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

English women during the seventeenth century wore the engagement ring on their thumb.

The Oil of Power.—It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

## British Families Welcomed

Women in Different Communities Had Houses in Order

The 29 British families, which arrived in Halifax, March 29, have been received in the various communities in which they have settled, with genuine cordiality, according to reports being made to Hon. J. J. Robb, minister of immigration. Officers of the land settlement branch of the department have directed the new arrivals to their homes, and in each community women of the neighborhood have set the houses in order, and in some cases even supplied the harder with immediate necessities.

## Field Marshal Haig's Visit

Proposal is Made to Change Date of Arrival at Ottawa

A change in the date of the visit to Canada of Field Marshal Haig is proposed in a cablegram received by the Dominion command, G.W.V.A., from the London headquarters of the British Empire Service League. With the previous arrangements it was found that the governor-general, Lord Byng, could not be at Ottawa for the official welcome, so it is now proposed to advance the date of Haig's arrival to Sunday, June 28, instead of July 19, so that His Excellency may be present.

Under the new arrangement, the members of the British Empire Service League will open in Ottawa on June 29, continuing for three days, after which the field marshal and Countess Haig, their daughter, Lady Alexandria, and party will make a brief tour of Canada, going west to Winnipeg.

## London Living Space Crowded

Compressed Furniture and Bunk Beds Installed in New Flats

The demand for living space in London is so acute that bunks, one above the other similar to those aboard ships which fold up out of sight when not in use, have been installed in some of the newest flats in the crowded City of London, where inches have to be taken into consideration wherever any building is being done.

Another innovation in the compressed furniture line is a "alcove" contrivance which includes a folding bed, washstand, chest of drawers, mirror, shoe rack, and space to place the bedding when the bed is not made up.

## Watching Moslem Drama

Great Britain, France and Italy Viciously Interested

Great Britain, France and Italy are watching the Moslem drama. It may have vital consequences to all of them and to every white power for a foothold in Africa or Asia. Not that there is any danger of a holy war. Islam's internal wars must end and its ranks close behind the green flag of the prophet become a menace. The continuing Islamic ferment, however, is not making the "white man's burden" any lighter, and at any time may take an ominous turn for the western world.—Philadelphia Ledger.

An Oil Without Alcohol.—Some oils and vinegars have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

## Will Break Yearly Custom

Egyptian Government Will Not Send Holy Carpet to Mecca

The holy carpet will not be sent from Cairo to Mecca this year, the Egyptian Government has decided owing to the condition prevailing in the Hedjaz. Writings have been issued to the faithful concerning the dangerous conditions of the pilgrim route. The holy carpet, or Kilash, is sent yearly by the King of Egypt as a covering for the Kalaba (Mahomet's tomb) at Mecca. It is a tissue of gold and mocha embroidered with texts from the Koran. The carpet is retained for only one year, a new one being made to replace it. The old one is cut up and sold to pilgrims.

## Immigrants From Ireland

Agents specializing in Irish business in Canada and the United States look for a big boom in steamship passenger traffic, according to a report received at Montreal by steamship companies. According to present indications, emigration from Ireland, particularly to Canada, is expected to reach the highest level since the war.

## For Sore Throat Use Minard's Liniment

W. N. U. 1673

## To Improve the Mind

League of Nations Will Prepare List of 600 Best Books

The League of Nations announces a plan to prepare yearly a list of 600 of the best books which have appeared during the preceding twelve months in various countries of the world. The underlying idea is the desirability for closer intellectual contact. The projected list will include as subjects, history, law, social science, theology, philosophy, classical, literature, art, geography, travel and literary history.

## Her Troubles

Quickly Disappeared

Quebec Lady Tells of Benefits Derived from Dodd's Kidney Pills

She Advises All Persons Who Suffer From Diabetes and Kidney Trouble to Use Them.

Herbertville, Que.—(Special).—"I have found your Dodd's Kidney Pills excellent. For ten years I have suffered from diabetes and pains in my kidneys. I have consulted many doctors. I have had their treatments without results. They told me my case was incurable. I had heard of Dodd's Kidney Pills and I decided to give them a trial. I took several boxes and my health seemed to improve."

"I continued taking them and today I am quite well. I can eat anything I wish. I always keep a box of Dodd's Kidney Pills in the house and if my kidney trouble re-appears I take a few and the trouble disappears. If any one suffers from diabetes or bad kidneys they should take Dodd's Kidney Pills."

This statement is sent to us by Dame E. Guay of this place.

Dodd's Kidney Pills will relieve kidney trouble no matter where or in what form it is found.

## Bullet 100 Years Old

Workmen building shelves in the new customs long room at Saskatoon, discovered a lead ball used in the old muzzle-loading guns of a century ago, imbedded in a piece of board. It is estimated the ball entered the wood 75 or 100 years ago.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectively that they pass from the body unperceived. They thoroughly cleanse the stomach and bowels and leave them in a condition not subject to worms, and there will be no revival of the pests.

People speak of the Day of Judgment; as though there is but one. There are thousands of them; today is always a Day of Judgment of yesterday.—B. W. Howe's Monthly.

The invention of the harp was due to an accident, we read. On the other hand, the inventor of the bagpipes was a Highland cottager, who got the idea through stepping on a cat.

All Brothers are requested to attend on this date.

### WEEKLY NEWS BULLETIN

### Alberta Coal Going to Ontario.

The initial shipment of 25,000 tons of Alberta coal to Ontario points, under the arrangements arrived at between the Alberta Government, Dominion Government and Canadian National Railways, will be commenced shortly, following the return of Trade Commissioner Howard Stutebaker from the East. An arrangement has been made between the Alberta Government and the C.N.R. whereby the initial shipment of 25,000 tons will be made to prove the freight rate at which the coal can be carried. The Dominion Government has agreed to bear the difference between a \$7 a ton rate and the actual cost of carrying the coal, provided there is a difference. The costs will be checked by an expert in behalf of the Provincial Government and W. P. Hinton, former Vice-President of the Grand Trunk Pacific Railway in charge of traffic, will do this work. The C.N.R. has agreed to carry the coal at actual out-of-pocket operating costs. Orders have been received for more than 200,000 tons from Ontario, and if the arrangement works out satisfactorily to all concerned, there will be considerable market for the Alberta product. The trial shipment will include coal from Drumheller, Clover Bar, Pembina, Wabamun, Three Hills and Saunders Creek.

### Good Sugar Beet Acreage Planted

Well over 6,000 acres have been prepared for the growing of sugar beets in the area tributary to the new beet sugar factory which is being erected at Raymond. Work is now being started on the factory which will be rushed to completion.

J. A. McCOLL  
Special representative of the Vancouver Harbour Commissioners in Alberta and Saskatchewan

Bringing home to grain growers and shippers the advantages of the Western grain route and the grain-handling facilities at the Port of Vancouver. Mr. McColl is visiting every grain centre in Alberta and Western Saskatchewan this summer, addressing Boards of Trade and local farmers' institutes, and personally calling upon grain shippers to make them acquainted with what Vancouver has to offer them as a shipping centre.

Having been an Alberta farmer for 18 years, and being born and raised on an Ontario farm, Mr. McColl, who formerly represented Acadia in the Alberta legislature, has a practical knowledge of the grain situation that is proving invaluable on his present mission. The experience gained on the land has been amplified by personal inspection of the Vancouver facilities and the advantages of the Western route.

It was Mr. McColl, at the time member for Acadia, who was responsible for the Federal government taking action to give the Board of Railway Commissioners power to transfer engines and cars from one railroad to another in order to handle grain at congested points. His activities on that occasion saving many farmers from losing their entire crop.

Copyrighted, 1922, by Rafael Sabatini  
"CAPTAIN BLOOD," a Viagraph picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

## SYNOPSIS

Captain Peter Blood, buccannery, commands a fleet of pirates. The Spanish ship *Milagrosa* sinks the Royal Mary, and Arabella Bishop, with whom Blood is in love, and Lord Wade, sent to the West Indies to make peace with piracy, are prisoners. Captain Blood's flagship, the *Arabella*, sails into the *Milagrosa* and her sister ship, the *Hidalgo*, and engages them in battle.

## CHAPTER XVII.—Continued

Speechless, livid of face, his mouth distended and his breathing labored, Don Miguel de Espinosa uttered an inarticulate cry of rage, and his hand swept to his sword. But even as his fingers closed upon the hilt the other's closed upon his wrist to arrest his action.

"What do you intend by me?" the Spaniard inquired at last, his voice hoarse. Captain Blood shrugged. The firm lips smiled a little. "All that I intend has been already accomplished. Your boats are being launched. You are at liberty to embark in them with your men before we scuttle this ship. Yonder are the shores of Hispaniola. Get you home, to Spain, Don Miguel, and to concerns that you understand better than this trade of the sea."

Lord Julian stood forward to meet him.

"Ye don't mean, sir, that you'll let that Spaniard scoundrel go free?" he cried.

"And who the devil may you be?" Captain Blood asked, with a marked Irish accent.

"I am Lord Julian Wade."

"Are you, indeed? Then perhaps you'll explain what the plague you're doing aboard this ship?"

Lord Julian controlled himself to afford the desired explanation. He did so shortly and unemotionally.

"He took you prisoner, did he—along with Miss Bishop here?"

"You are acquainted with Miss Bishop?" cried his lordship, passing from surprise to surprise.

But this unassuming fellow had stepped past him, and was making a way to the lady, who on her side remained unresponsive and forbidding to the point of scorn. Observing this, he turned to answer Lord Julian's question.

"I had that honor once," said he. "But it seems that Miss Bishop has a shorter memory."

## ASK THIS HALIFAX NURSE

She Is Willing to Answer Letters from Women Asking About Lydia E. Pinkham's Vegetable Compound

Halifax, Nova Scotia.—"I am a married nurse and have recommended Lydia E. Pinkham's Vegetable Compound to many women who were children, also to women who need a good tonic. I am English and my husband is American, and he told me of Lydia E. Pinkham while in England. I would appreciate a copy or two of your little books on women's ailments. I have one which I keep to lend. I will willingly answer letters from any woman asking about the Vegetable Compound."—Mrs. S. H. COLEMAN, 24 Ullswater Street, Halifax, Nova Scotia.

**Could Not Sleep Nights**  
Dublin, Ontario.—"I was weak and irregular, with pain and headaches, and could not sleep nights. I learned about Lydia E. Pinkham's Vegetable Compound by reading the letters in the newspapers and tried it because I wanted to get better. I have got good results from it and I feel a lot stronger and am not troubled with such bad headaches as I used to be and am more regular. I am gaining in weight all the time and I tell my friends what kind of medicine I am taking. You may use my letter as a help to others."—Mrs. JAMES RACHO, Box 12, Dublin, Ontario.

W. N. T. 1572

His lips were twisted into a wry smile, and there was pain in the blue eyes that gleamed so vividly under his black brows, pain bleeding with the mockery of his voice. But of all this it was the mockery alone that was perceived by Miss Bishop; she resented it.

"I do not number thieves and pirates among my acquaintances, Captain Blood," said she; whereupon his lordship exploded in excitement.

"Captain Blood?" he cried. "Are you Captain Blood?"

"If you'll escort Miss Bishop aboard my ship, I shall be obliged to you," he heard Blood's voice in level tones. "I beg that you'll make haste. We are about to scuttle this hulk."

## CHAPTER XVII. Thief and Pirate.

Captain Blood peered the poop of his ship alone in the twilight dusk and the growing golden radiance of the great poop lantern in which a seaman had just lighted the three lamps. About him all was peace. The signs of the day's battle had been effaced. A group of men equalling about the main hatch were drowsily chanting, their hardened natures sojourned, perhaps, by the calm and beauty of the night. Captain Blood did not hear them; he did not hear anything save the echo of those cruel words which had dubbed him thief and pirate!

Thief and pirate! She had summoned him up, convicted him and sentenced him in that one phrase. He was thief and pirate in her eyes; nothing more, nothing less. What, then, was she? What are those who have no clarity? He asked the stars. Thief and pirate she had branded him. She should be justified. Thief and pirate should be proved henceforth; no more nor less; as those others who had deserved those names. She had shown him clearly to which world he belonged. Let him now justify her. She was aboard his ship, in his power, and he desired her.

He laughed softly, jeeringly, as he leaped on the taffrail, looking down at the phosphorescent gleam in the ship's wake, and his own laughter startled him by its evil note. He checked suddenly, and shivered. A sob broke from him to end that ribald burst of mirth. He took his face in his hands and found a cold moisture on his brow.

Meanwhile Lord Julian was engaged in solving the curious problem that had so completely escaped the buccannery. He was spurred to it by vague stirrings of jealousy. He wondered what precisely might have been her earlier relations with Captain Blood. He had observed, for instance, that Blood's ship was named the *Arabella*, and he knew that Arabella was Miss Bishop's name. And he had observed all the odd particulars of the meeting of Captain Blood and Miss Bishop, and the curious change that meeting had wrought in each.

The lady had been monstrously unkind to the Captain. It was a very foolish attitude for a lady in her circumstances to adopt towards a man in Blood; and his lordship could not imagine Miss Bishop as normally foolish. Yet, in spite of her rudeness, in spite of the fact that she was the niece of a man whom Blood most regarded as his enemy, Miss Bishop and his lordship had been shown the utmost consideration aboard the Captain's ship. They were given the freedom of the great cabin, and they had sat down to table with Pitt, the master, and Wolverstone, who was Blood's lieutenant, both of whom had shown them the utmost courtesy. Also there was the fact that Blood, himself, had kept almost studiously from intruding upon them.

(To be continued)

Those who say the world isn't making progress are not.

# Something New!

**CHEWERS** always prefer their tobacco in perfect condition; this is assured, when they demand it packed in the famous Vacuum (air-tight) tin.

The following well known brands are now packed in the famous Vacuum (air-tight) tin.

**Big Ben Black Plug** *Chewing Tobacco*

**Stag Bright Plug** *Chewing Tobacco*

## OUR CROSSWORD PUZZLE

"COME ON IN." It is one of those puzzles which look easy in the solution, but when it comes to working them out, well, that's another matter.

- Horizontal
1. Mother.
  5. Used by artists.
  10. Islands in Southwest Pacific.
  11. Assemblage of persons or animals.
  13. A conjunction.
  14. Native mineral.
  15. Contraction of a Jewish name.
  17. X. T. E.
  18. One (F. Fem.).
  20. Condition of bodily rest.
  22. To entangle (archaic).
  23. Part of spectacles.
  24. A pronoun.
  26. B. A. L. A.
  27. Fruit of North Africa.
  29. Rip.
  31. Exist.
  32. Prefix.
  34. Child (in contempt).
  36. Covered with ink.
  39. Color.
  41. Pronoun (poss. form).
  42. Song given by one person.
  45. Opposite to cold.
  46. Kind of thread used in hosiery.
  48. Egg of a small insect.
  49. River in Siberia.
  50. River in Scotland.
  51. To commit error.
  52. Point of compass.

54. Adhesive substance secreted by most plants.
56. City in Massachusetts.
58. Melodies.
59. Fragrant oil from rose petals.
1. River in France.
2. Form of verb "to be."
3. Also.
4. Part of head (pl.).
6. On top.
7. Anger.
8. Negative.
9. Sum.
10. The eternal part of man (pl.).
12. Part of a flower.
15. Otherwise.
16. To come together.
19. Flims.
21. Exclamation.
25. Sailor (nickname).
28. Cavalry sword.
29. A long heaped up mass of any substance (pl.).
30. A drink.
32. Contraction of "even."
33. To detect.
34. Conjunction.
35. Slim.
36. Small island.
37. Yonder (abbr.).

## WHEN THE SYSTEM IS ALL RUN DOWN

Often All That Is Needed Is a Tonic to Build Up the Blood. There are many women who have been invalids or semi-invalids so long that they accept their condition as a life burden. They have endured broken sleep, stomach trouble, nervousness, headaches and weakness so long that they have given up hope of enjoying good health. In most of these cases a well chosen diet, fresh air and a tonic to build up the blood, would do wonders. To all run-down, nervous people the experience of Mrs. J. H. Cameron, Waterville, N.S., will be of deep interest. She says:—"About two years ago I was in a miserable run-down condition. I was unable to do my work, my head ached day and night, my nerves were all unstrung, and for three weeks I could not eat or sleep. I then decided to give Dr. Williams' Pink Pills a trial and got six boxes. By the time I had used half of them I felt much better, and when I had taken the six boxes I was as well as ever. I could work all day and not feel tired and have been strong and healthy ever since. I have never taken any medicine that did me so much good and will always highly recommend Dr. Williams' Pink Pills. You can get these Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

**Encourage Home Industries**  
The youthful Amir of Afghanistan encourages home industries. If he sees an Afghan wearing foreign-made clothes he slips up behind and slashes the clothes apart with a penknife, kept sharp for that purpose.

LINIMENT

## EARLY ELECTION IS PENDING ON THE BUDGET VOTE

Ottawa.—Indications point to the debate being continued for a week or 10 days when the house convenes after the Easter recess. The desire of the government to expedite business has caused both Conservatives and Progressives to take steps insuring that there will be no undue speed. As a consequence, the accomplishments to date are much less than was expected a month ago.

The character of the budget vote will be a large determining factor in the election question. If the government has a substantial majority on this most vital item of policy, it will be argued that no warrant exists for an early dissolution. If its majority be narrow, by an adverse combination of widely divergent elements, the influence will be to accelerate an appeal to the country. Present indications being that the majority will be small, the prospects of an election this year are increased in proportion. The relative blockade now in progress is said by Conservatives to be dictated by the desire to have the session continue till the Saskatchewan and Maritime province elections are over. At least, in the latter case, they will be in June.

### Russia Would Raise Loan

Must Recognize Debts Before Any Proposal is Considered

London.—Representatives of Russian and British banks, the Daily Mail says, are conferring with the knowledge of the British treasury. In an effort to ascertain a basis on which Russia would be able to raise a loan in London. The Russians are understood to have been notified that English financial circles would not consider any proposal for a loan until Russia gives an understanding that she will recognize liability to repay her debts.

### Inspect Mental Hospitals

Edmonton.—Hon. George Hoodley, minister of agriculture, announced in the legislature that he had under consideration the appointment of a committee of 10 persons, who would visit the mental hospitals of the province every month to inquire into any complaints and to determine whether or not the patients are being given proper treatment.

## Phantom Airship To Revolutionize Warfare

London.—British airmen have been startled by the report that Anthony H. G. Pokker, the Dutch designer, has developed an aeroplane which will carry bombs and many guns through the air at a speed of 180 miles an hour. This phantom ship is said to be equipped with motors developing 1,000 horsepower. The new Pokker model is capable of climbing six miles into the sky, so that it would become virtually invisible to anti-aircraft gunners.

## Makes Parachute Jump From Moving Plane

Demonstration Given in B.C. By Flying Officer of High River, Alta.

Vancouver.—The first parachute jump from a moving airplane to be made in Western Canada took place at the Jericho Beach station of the Royal Canadian Air Force, when N. Carter, flying officer of the High River, Alta., station, gave a demonstration to the officers who are training here.

Poled on the wing of a seaplane, which was flying 800 feet over the grounds of the Jericho golf club, Carter allowed the small parachute which guides the blazer one to a perpendicular position, to filter out. Then he pulled the release cord, and the 24-foot expansion of silk puffed open in the breeze. The airman was pulled from the plane with a jerk. He landed on the fairway with a bump, but unharmed.

## Earl of Balfour Reaches Nazareth

British Statesman Received at Settlements With High Honors

Nazareth, Palestine.—The Earl of Balfour, who came to Palestine to dedicate the new Hebrew university, arrived here somewhat worn and fatigued, after a strenuous day in which he had visited the Jewish settlement of Nazareth and Haifa, lying in the plains of Jezreel.

At Balfour the British statesman was received with the highest honors the Jews can pay an illustrious visitor; a scroll of the law being carried before him under a canopy, and bread and salt placed for him on a table. The ceremony took on the nature of a formal dedication of the settlement.

Brilliant weather favored the tour of the distinguished guest.

French Consulate At Vancouver.—Vancouver.—The French government has decided to re-open the consulate here which has been closed since 1907. It is announced. The new consul will be P. Storer, who has been in charge of the French consulate at Capetown, South Africa, since 1922. Since 1907, the Vancouver office has been operated through the consulate general at Montreal.

Race Track Restrictions.—Winnipeg.—Restriction in the number of race tracks in Manitoba is sought in a bill to be introduced in the legislature by W. D. Bayler, Independent, Assiniboia. Mr. Bayler, in giving notice of the bill, stated that it was not intended to eliminate race tracks, but to end the evident exploitation of race tracks as commercial enterprises by unreliable promoters.

Chinese For Wembley.—Victoria, B.C.—In picturesque Mandarin costume, Sir Robert Hoang, member of the Hong Kong legislative council, and representative of Hong Kong at the Wembley exhibition, arrived from China on board the liner Empress of Canada, enroute to London. "I am satisfied that the Wembley exhibition will again be a signal success," said Sir Robert.

Duc de Nemours Visits Calgary.—Calgary.—Prince Charles Philippe d'Orleans, who wishes to be known simply as the Duc de Nemours, arrived in Calgary in the course of his journey through Western Canada, which he will conclude by a visit to the ranch of Lord Roddy, at Fort Saskatchewan, where he will make a study of farming. He may buy a farm but not now.

Germany is Paying.—Berlin.—Germany paid \$1,691,000 marks under the Dawes plan during March. Great Britain receiving 26,000,000 and France 37,900,000.

## Is Now Convalescent

PREMIER W. F. MASSEY

of New Zealand, who is reported to be recovering from his recent critical illness.

## Flight Of Dirigible Successful

Great Britain's R-33 Answered Well to Tests

London.—Great Britain's airship, R-33, carried out an experimental flight one night recently, starting from the Pultenham airfield at 7 p.m., and not returning to her mooring mast until almost noon the next day. Commanded by Major Scott, the R-33 took a leisurely flight southward in the evening, obtaining data for the construction of the new airship R-101. Major Scott sent a wireless to the Admiralty that the ship was answering well to every test.

About 1 o'clock in the morning the commander brought the big dirigible over London and gave late travellers about the city a good view of her in the moonlight, the spectacle recalling to many the war-time days of Zeppelin raiders.

## Plenty Of Men Available At Coast

No Shortage Of Help For Alberta Farmers

Calgary.—Plenty of men will be available from the coast to take care of the demand for farm hands in the southern part of the province, according to officials of the Calgary office of the Alberta Government employment service.

"Farm hands will be imported in accordance with the demand in the district and there is little likelihood of a serious shortage developing here with a big supply to draw from at the coast," remarked William Canblish, superintendent of Calgary bureau.

Harvest Operations Near Brandon.—Brandon.—Harvest operations have commenced in Brandon district when J. Coulton started threshing oats and will later get some barley through the separator. Another farmer is also threshing sweet clover. This grain has all been in the stock in the field during the winter and farmers are greatly interested in the outcome of the threshing operations which are very unusual here at this season.

## What Pretty Girl Did for Sick Stomach

Miss P. Rich of Brooklyn, N. Y., says: "I don't know what the cause was, but every few days my stomach would feel bloated up with gas, my appetite was poor and I felt sick to my stomach—to say nothing of headaches."

"I never thought of using Carter's Little Liver Pills until nothing seemed to help. After using Carter's I felt relieved at once—and now as soon as my stomach 'talks' back I answer with Carter's and have the last word. Recommended and for sale by all drug stores. 25c."

## Plans For British North Pole Expedition

London.—Giving details of the plans for the British North Pole aerial expedition on which he intends to start next month, Greville Algaron, a young Icelandic, says in the Daily Express that the final dash to the Pole will be made in a small non-rigid airship and not an airplane. The ship will be 150 feet long and similar to those used for patrolling the English Channel during the war, but especially designed to withstand the exceptional polar conditions. The airship will carry four passengers, a thirty-day food supply, special cooking stoves, and spare gasoline as ballast.

## Assistance For Rural Schools In Alberta

Government Measure Will Make It Easier For Poorer Sections

Edmonton.—A bill providing for equalization of grants to rural schools is being introduced in the Alberta legislature by Hon. Perren Baker, minister of education.

At the present time, many of the rural schools of the province are unable to carry on for more than three months of the year, while others, which are in a better financial condition, are able to meet all the requirements with little difficulty.

The measure suggests that a form of educational tax be imposed on all rural sections of the province alike, regardless of whether the land is within a school district or not. At present, there is a tax of three mills on land outside of organized school districts, and the measure would extend this to all lands in the province. The total revenue thus collected would be redistributed to the various school teachers on the basis of \$500 per teacher, and, as a result, practically every district would be placed on practically the same basis. The school districts that are well off financially, will, in a measure, help to pay for the educational costs of those that are unable to carry on successfully if entirely dependent on their own resources.

## To Help Aged Prima Donna

Proposed Fund on Behalf of Madame Albani, Famous Canadian Singer

Montreal.—La Presse, local French language newspaper, states that Premier Mackenzie King has invited that journal to organize a subscription on behalf of Madame Albani, the aged prima donna, whose musical successes in the latter part of the last century were world wide. Madame Albani, who was Maria Emma Leprieux, born at Chambly, Quebec, in 1822, is living in straitened circumstances in London. The newspaper says: "His Majesty King George V. has accorded his gracious patronage to the project of aiding the great artist, who was celebrated by the masters of her time 'the spirit of the oratorio.'"

## Will See Over Radio

Baltimore, Md.—Invention of a device known as "the prismatic ring" will enable radio fans to see the next Olympic games, as well as hear the cheering. It is predicted in a report to the American Chemical Society by the inventor, C. Francis Jenkins, of Washington, D.C.

He also promises that the "stay at homes" may see football or baseball games, a regatta or baby parades, while these things are actually happening.

## Doukhobors Must Obey Law

Victoria.—"We have a law and it must be obeyed," said Attorney-General Manson in respect to the Doukhobor situation in Grand Forks. In spite of all threats made by the Doukhobors, the government proposed to enforce it. The provincial police are making arrangements to send extra men to Grand Forks, if the situation makes it necessary.

## Hindenburg Refuses Nomination

Berlin.—Field Marshal Von Hindenburg's definite "No" was spoken by his representative, Count Von Wedel, and the Nationalists hopes that the former leader of Germany's army would be the presidential candidate of the Monarchists in the second election battle, April 26, were dashed.

## NEXT EMPIRE CONFERENCE MAY BE HELD HERE

London.—The next imperial conference may be held in Ottawa, in 1927. This suggestion is being strongly urged upon the government, and is very popular among members of parliament, but the permanent officials who have to pass upon all such propositions, and naturally lean toward the conservative side of all questions, point out that before any decision can be made all the Dominions would have to be consulted.

The Baldwin Government is very favorable to the suggestion that alternative conferences should be held in one of the Dominions, and naturally, Canada has the preference, because of its nearness to the mother country, from point of distance and time of travel. Naturally, the other Dominions have to be consulted, and it will take some time to get the views of Australia, New Zealand and South Africa on the question.

## To Aid Settlers

Government Loans For Settlers In Lethbridge Northern Irrigation District

Edmonton.—Settlers who take up land in the Lethbridge northern irrigation district in future will be provided with financial assistance in the way of loans for the purchase of livestock and buildings or building material, and in addition will not be required to make water rights payments for the first three years, according to a measure introduced in the legislature by Hon. V. Smith, minister of railways. Present residents are also given certain assistance such as an extension of the period of payments.

The measure is purely a colonization scheme with the object of settling the northern irrigation district so that the province will be able to get a return on its guarantee of some \$5,400,000 in this project.

## Urges Preparation For War

Conflict May Come at Any Time Says Russian General

Moscow.—General Frunze, commander of war, said he believed the entire countries were too occupied with economic affairs to engage in immediate warfare, but he did not rule out the possibility of attack from them in the future.

"The international situation," he said, "is such that a conflict may arise at any moment; therefore, we must go on preparing the forces of war."

**MURINE FOR YOUR EYES**

Wholesome Cleansing Refreshing

## Piracy In China

London.—In a dispatch to the Daily Mail from Shanghai, dealing with the sale of the Dollar Steamship Company interests on the Yangtze River, the correspondent asserts that the sale was made owing to the difficulty of operation due to piracy and consequent military interference.

Pass it around after every meal. Give the family the benefit of its aid to digestion. Cleans teeth too. Keep it always in the house. **Wrigley's**

"Costs little—helps much"

**WRIGLEY'S**

## Quote Numerous Cases Of Farmers Returning To Canada From The United States

Additional examples of farmers returning to Canada from the United States, for the reason that the Dominion offers better opportunities for success, are quoted by the department of immigration and colonization. Within the past few weeks the agent of the department at Detroit has reported the following instances:

Arthur Stevenson, an Englishman, with his wife and family, of Vpallant, Michigan, farmed nearly 11 years at Luseland, Saskatchewan. A few months ago Mr. Stevenson went to the States with the idea that he could make more money there, but he has been disappointed in this respect. He and his family are now satisfied that farming is the best and most profitable life, and are returning to Luseland where they will farm again. Stevenson came to Canada from England 18 years ago.

Walter Macdonald, of Detroit, a native of the United States, farmed in Saskatchewan for seven years. About a year ago he sold out and went back to the States where he has been working in factories. "I am tired of the factories and want to get back on my own," said Mr. Macdonald, who is leaving to take up land in Alberta.

F. W. Greig, went to the United States four years ago after farming with his father at Prince Albert, Saskatchewan. He failed to find the attractive opportunities that he expected in the factories where he worked, and has made arrangements to return with his wife and two daughters to take up a farm near relatives in the Prince Albert district.

Willis Mitchell, a native son of Ontario, went to the States seven years ago, but has not found conditions there to his liking, so he is going to farm. He is joining friends at Grand Prairie, who are doing well, and he intends to farm there.

W. E. McCutcheon farmed for six years at Lacombe, Alberta. In 1921 he went to Chicago. He has now decided he could do better on the farm and is returning to his former place which, during his absence, has been kept going by his brother.

The Canadian Government agent at Great Falls, Montana, reports the two following examples:

George W. Hodgins, Choteau, Montana, is 51 years of age and Canadian born. Mr. Hodgins moved from Bruce County, Ontario, and homesteaded at Clareholm, Alberta, for seven years. On his farm he grew forty to fifty bushels of wheat to the acre and about thirty bushels of oats. In 1912 he sold out for over \$12,000 in cash, which was made out of a quarter-section in seven years. The following year he went to Montana, to Teton County, where he homesteaded one quarter section and bought another half section and put in from 400 to 500 acres in grain every year. "I have given Montana a fair trial for farming," he said, "I have made it through the dry years and bad crops, but lost everything I had." He has now rented a place at Speers, Saskatchewan, to commence farming there over again as he says he has learned from experience it is hard to beat the opportunities which he has in Western Canada.

In 1902, Mr. John C. Brown, now of Great Falls, Montana, went to Alberta. He took up farming at Ribault, in the Cardston district. He had good crops every year during the period he lived there. He found the soil very fertile, the climate very healthy, the law of the best, and the schools good. He has seen 62 bushels of No. 1 Northern per acre. He has had 40 bushels of No. 1 Northern per acre by not stabilizing it in. Mr. Brown sold out in 1918 and went to Great Falls, Montana. He has now decided to return to Canada as he considers it the best farming country at all odds.

**Butter Production Increases**  
Production of creamery butter in Saskatchewan during February totalled 612,820 pounds, as compared with 521,514 pounds during February, 1924, an increase of 81,306 pounds or 15.6 per cent. The average daily production was 21,000 pounds and the increase over the corresponding period last year would have been greater if there had been 19 days in February this year as there was last.

**W. N. P. 1922**

### Use of the Packer

Has Little Practical Value in Land Preparation

In his summary of experiments in wheat from 1899 to 1922, the superintendent of the Dominion experimental farm at Brandon, Man., gives the results of experiments in packing and points out that they do not show any advantage gained from the use of the packer. It is of interest, he adds, to note that similar results have ensued on practically all the other prairie experimental farms. While it would appear to be proven that the packer is unnecessary as an implement for regular use in land preparation for wheat growing it does not follow that it is never useful. In special circumstances, where the condition of the land is abnormally open or loose, the use of a packer is possibly, or even probably justified. The Brandon superintendent (Mr. W. C. McKillop) states that the tests conducted by him cover most ordinary cases in the growing of wheat and that in none of them is any consistent improvement in yield shown from the use of the packer. He also adds that, considering the tremendous investment in such implements by western farmers, the savings he supplies in Bulletin No. 42 of the Dominion department of agriculture, which is to be had by writing the publications branch at Ottawa, are most important.

### Alberta's Newest Crop

Sunflower Crop Amounted To 100,650 Tons Last Year

One of Alberta's newest crops, sunflowers, used for silo fodder, amounted to 100,650 tons last year, while fodder corn, also comparatively new, amounted to 289,588 tons. The development of these field products is largely due to the expansion of the dairy industry. Alberta's dairy production last year was valued at close to \$25,000,000 and is rapidly increasing. Britain is providing an attractive market for butter, and Alberta cheese is finding an increasing demand.

### Interest In Forage Crops

Large Amount of Seed Sold From Special Train Operated in Saskatchewan

Interest in forage crop production among the farmers of Saskatchewan is evidently on the increase, judging by the large sales of seed from the special forage fodder crop train operated by the Provincial Government and the Canadian Pacific Railway during the past month. At Dulyea three meetings of farmers in that district visited by the forage crop car, resulted in the sale of seed to the value of \$500.

### Winnipeg Fur Sales

Winnipeg's importance as a centre for the distribution of raw furs in wholesale quantities is steadily increasing. During the spring auction sales, held recently, furs aggregating in value about three-quarters of a million dollars were sold to buyers from Eastern Canada, the United States and Europe. Another sale will be held later on this year, when the winter catch of the far north is received.

### Determined To Work

Joseph P. E. Ballou, 17-year-old grandson of the late Lord Glanusk, has come to Canada determined to work. Recently he made several efforts to escape the trammels of his class and make his way as a worker in England. Last January he disappeared from Bray-Cot College at Maldenhead, England, wearing a false mustache and horned rimmed spectacles as a disguise. His family discovered him working as a laborer in a cork factory, but the child life is not for him. He is seen at St. John, N.B., waiting for a Canadian Pacific train to whisk him to parts unknown in the west.

### Garnet Wheat

May Possibly Replace Famous Marquis Wheat in the Near Future

"The production of Garnet wheat may possibly in the near future, replace the famous Marquis wheat," L. H. Newman, Dominion cerealist, experimental farms, told the agricultural committee of the House of Commons recently. Its capabilities of high production in seasons of drought, and to ripen earlier than the Marquis, even in wet weather, thereby escaping the possibilities of rust and frost, are valuable factors in its favor. It was hoped that the growing of Garnet wheat would extend the wheat-growing area many miles further north.

### Timber For Admiralty

Fifty-one Tons of Squared Timber Shipped From Ottawa

Part of what is one of the greatest shipments of lumber ever handled by rail, unique in that it is the greatest movement of squared timber since the days when it was floated in rafts to the ports, left Ottawa recently for England on a train of fifty-one cars. The timber was white pine, cut from the virgin growth in the woods about 150 miles north of Ottawa.

J. R. Booth, the veteran lumberman, who made the shipment, will be 90 years of age this year, attended to all details of this contract with the British Admiralty.

### Live Cattle Exports

Increase in Number of Live Cattle Shipped to the United Kingdom

An increase of approximately 50 per cent. has taken place in the live cattle exports to the United Kingdom in the period January 1 to March 19, 1925, as compared with the corresponding period last year. Up to March 19 the exports of cattle in 1925 were 11,662 head, as compared with 10,531 in the same period in 1924 and 9,511 in 1923.

## Covering Of Western Provinces With A Forest Growth Is A Possibility Of The Future

### Livestock Market Situation

Increased Shipments Indicate a Better Condition of Trade

The monthly review for February of the livestock market by the Dominion livestock branch showed an increased volume of through billing, indicating a better condition of trade between the east and west now as compared with the same period of last year.

The comparative standing of our overseas export trade is strongly in favor so far in this year's business. It would appear that all available ocean space is being well taken care of and every boat should carry its maximum number.

A feature of the market was the development of a keen demand for good feeder cattle on both domestic and export account. Common sorts of stores were shown to be more or less an unsaleable commodity.

Compared with prices a year ago, hogs showed an advance of from \$3 to \$4 per hundred, equal to at least \$5.70 to \$7.40 per head. Toronto showed a \$12.92 per hundred average on select, Montreal \$11.40, Calgary \$11.32, and Edmonton \$11.42. The market promises strength for some time. Farmers are advised to market their hogs at finished weight so as to obtain the extra return for select bacon stock.

An English cattle dealer reports that recently he received 8 cents a pound less for Canadian hides than for English of similar quality on account of brand marks.

### Free Grant Homesteads

44,800 Acres Taken Up in Western Canada During January

During the month of January, 233 free grant homesteads were taken up in Western Canada, an increase of 18 over the same month last year. During the same month, 47 soldier grant entries were filed. Of the homesteads, 58 were taken up in Manitoba, 117 in Saskatchewan, 73 in Alberta, and 5 in British Columbia. The homesteads and soldier grants combined, represent approximately 44,800 acres.

### Seed Cleaning Plant

Alberta Seed Growers Association Doing Good Work

The seed cleaning plant operated by the Alberta department of agriculture and the Alberta Seed Growers' Association handled, up to the beginning of March, a total of over 52,000 bushels of registered seed, according to a report of the field crops commissioner. Shipments have been made to a large number of points in the western provinces, as well as to the United States.

### Best Customer For Radios

Canada is the best customer of the United States has for her radio manufacturers. The result of a recent survey of foreign markets shows that Canadians imported radio apparatus from this country during 1924 to the value of \$2,418,687, which is by far the largest trade of any country.

Character enables a man to stand alone, but it's reputation that enables him to get a loan.

A little group of Aspen Poplars in a field or by the roadside, by the railway track or on the open prairie; where did they come from? How did they get here and why? They are only about two to three feet high and most assuredly they were not there three or four years ago. What is its purpose and history?

Its purpose is mighty significant for it is no less than the covering of the whole prairie with a dense forest. What? That little patch a few feet across, cover hundreds of miles of prairie? Absurd! No, not absurd, for a similar little patch, together with thousands more like it have already treed over hundreds of miles that were entirely bare prairie when the settlers came to the country and looked to them as if the last thing you would find growing there would be trees.

Look at it, dig it all up carefully without breaking the roots and you will find that the twenty or thirty little trees of all sizes that constitute the group are all connected one to another by their roots. The one root system is common to all, that is the roots spread out from a common centre and as they spread out a succession of little treelets into the air.

Do you see how the greatest roots are in the middle and that they grade down to the smallest on the outside? Look in the grass around them and you will see still more of them just beginning to grow. The little treelets will be a foot wider all around and covering almost twice the area.

Here is another similar clump 100 feet away. It is just about the same size, but you see the same arrangement of tall ones in the middle grading down to tiny ones at the margin. In a few years these two little clumps will have spread so much they will have met. There is nothing to prevent them from spreading into the air. Do you see how the greatest roots are in the middle and that they grade down to the smallest on the outside? Look in the grass around them and you will see still more of them just beginning to grow. The little treelets will be a foot wider all around and covering almost twice the area.

That is how it goes on and has been doing so far centuries. A little seed blown from larger trees somewhere, perhaps miles away, lands in a sunny place kept moist, perhaps, by a snow bank drifted there over winter. The seed germinates, sends up a little sprout and you have the beginning of a little tree. As the tree grows it sends up its branches and sends up its roots by spreading its roots, sending up more shoots and shedding more seed. All the great Aspen forest of the north and foothills has spread in just this way.

The beautiful prairie in this country around the fringe of the prairie is simply a stage in the same development. And the clumps suddenly appearing in odd out of the way corners here and there are just the forerunners of the great forest. The great army of trees that will slowly but surely follow after.

The reason this hasn't taken place long ago is because the prairie fires from the west to the east and any little forest clump that got started was burned up. Our road allowances and farm lands are excellent fireguards and the little trees get a chance to make themselves apparent. The beautiful tree-lands of Manitoba, Eastern and Northern Saskatchewan and Northern Alberta were bare prairie in the memory of men still living, and are just a forest of what the rest of the country would be like if left alone.

The prairie is a natural tree country. There's no doubt about it, and it is one of the most encouraging facts the farmers can bear in mind, for if he carries on his planting in accordance with Nature's ways he cannot but be successful. The little natural tree clump is most significant and most encouraging.

### Heavy Grain Shipments

Four points on the Leithridge division of the Canadian Pacific Railway shipped more than a million bushels of grain each in the shipping season 1924-25. These points were Vulcan with 1,128,000 bushels, High River with 1,022,990 bushels, Nanton with 1,028,000 bushels and Cardston with 1,000,000 bushels.

Use a dry flat piece of white soap to rub over the surface for which you want to draw threads for hemstitching. This will make the threads slip out much easier.

### Bishop Of Namur To Prepare 1926 Congress

Monsignor Heylen, Bishop of Namur and permanent president of the Eucharist Congress was a prominent westbound passenger on the Canadian Pacific 5.5. Montreal recently. Accompanied by Comte D'Yamville, general secretary for the Congress and the Rev. E. A. Boonin, his private secretary, he was enroute to Chicago where he will formulate plans for the Congress to be held there in June, 1926. Photographed at Windsor Station, Montreal, from left to right, Comte D'Yamville, Monsignor Heylen, J. Van Rieckel, Belgian Consul at Montreal; Rev. E. A. Boonin.

## WORLD HAPPENINGS BRIEFLY TOLD

Two Baby Grand planes were shipped by a New York plane firm from Roosevelt Field, Long Island, to Washington, by air.

The executive of the Ontario Secondary School Teachers' Federation has recommended more thorough academic training for continuation school teachers.

The U.S. battleship Idaho has been added to the detachment to visit Australia and New Zealand on revised schedule, reaching Sydney, July 22, the same day another detachment will reach Melbourne on revised schedule.

A float illustrating early Protestant missionaries' activities in the west, in the stampede parade, will be arranged for by Calgary Ministerial Association. It was decided at a meeting of the association.

Etwood Haynes, 68, who in 1894 invented the horseshoe carriage, is dead at his home, Kokomo, Ind., a victim of influenza. Mr. Haynes, who had never fully recovered from a previous attack of the disease, was ill but a few days.

Arrangements have been made to hold the next annual convention of the Canadian Authors' Association at Winnipeg on June 25, 16 and 27. The copyright issue is scheduled for debate. A new executive and national council will be elected.

Over \$1,000,000 will be spent on roads and highways in British Columbia this year, of which \$2,000,000 will be devoted to new construction. Provincial revenue levied from motor traffic will bring in \$1,000,000 from licenses, and in addition a three cent tax will be levied on gasoline.

As a vermifuge an effective preparation is Mother Graves' Worm Extirpator, and it can be given to the most delicate child without fear of injury to the constitution.

### Trade With West Indies

A Canada-British-West Indies conference with a view to arranging a new trade and transportation agreement between these countries will be held in Ottawa, June 19 next, according to official announcement made.

### Mrs. Margaret Phipps

—Wolfe's Photo Studio

Chatham, Ont.—"Dr. Pierce's Favorite Prescription did me a wonderful lot of good and to women who go down in health during menopause I would advise its use. I was very sick, especially did I suffer from 'morning sickness.' My stomach was so upset that I could not retain anything. I was afraid to eat, I grew nervous and weak and my back ached. I just seemed to suffer with all the ills that come to prospective mothers. I saw Dr. Pierce's Favorite Prescription advertised and began to take it and this medicine just kept me up fine, relieved me of all suffering and distress, and I was able to be around right up to the last. I have the greatest faith in 'Favorite Prescription.'—Mrs. Margaret Phipps, 124 Inches Ave., All Dealers. Write Dr. Pierce, Peas, Invalids' Hotel, Buffalo, N. Y., for free medical advice.

W. N. L. 1573

### Gives Away Wealth

George Eastman, Kodak King, who recently turned over to his two vice-presidents, a business capitalized at over a quarter billion dollars. Eastman, who will be 71 years old in July, wants to be free to take a somewhat more detached position in human affairs.

### "DIAMOND DYE" IT

#### A BEAUTIFUL COLOR

Perfect home dyeing and tinting guaranteed with Diamond Dyes. Just dip in cold water to tint soft, delicate shades, or boil to dye rich, permanent colors. Each 15-cent package contains directions so simple any woman can dye or tint lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything new.

Buy "Diamond Dyes"—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods.

### More Beer Consumed

Fewer Breweries But More Beer In Canada Last Year

More beer and fewer breweries in Canada in 1924 is noted in the report of the department of customs for the fiscal year 1924. While the number of licensed breweries dropped from 66 to 54, the output of malt liquor last year was 14,098,490 gallons compared with 36,902,966 gallons in the previous year. Canada exported 189,593 gallons of last year's brew, leaving nearly five gallons per year per head of population for home consumption. In the same year Canadians consumed less than a quarter of a gallon of hard liquor per head, that is of liquor reported and taxed by the government.

### A Great Ideal

All Sectional and Provincial Jealousies Must Be Removed

In closing his budget address Hon. J. A. Robb said: "The immediate future looks brighter. But to achieve our destiny we must remove all sectional, all provincial, jealousies from our hearts; we must keep faith; forget all differences of tongue and creed; remembering always that we enjoy a great heritage; that we are Canadians."

### Minard's Liniment For Colds

Alberta Beet Growers A new co-operative association, to be known as the Southern Alberta Beet Growers' Association, has been recently formed with a view to giving the fullest possible support of the sugar factory to be erected at Raymond this year by the Utah-Idaho Sugar Company.

No one need endure the agony of corns with Holoway's Corn Remover at hand to remove them.

The number of miners killed in the United States last year was four times the number killed in England.

Minard's Liniment Fine for the Hair

### INECTO RAPID

The world's best hair tint. Will restore gray hair to its natural color in 15 minutes. Small Size \$3.50 by mail. Double Size \$5.50 by mail. The W. T. Pender Stores Limited Phone M. 2274-5 129 Yonge St. TORONTO, ONTARIO

### Canada's Debt Decreased

Decrease of Nearly Six Millions During the Past Year

The statement of the finance department issued and covering all returns received up to March 31, the end of the fiscal year, shows a decrease in the net debt of Canada during the month of March of \$1,852,272 as compared with March, 1924, and a decrease of \$2,593,162 in ordinary expenditures. For the whole year ordinary revenue dropped \$55,087,519 and ordinary expenditure decreased \$7,033,161, as compared with the previous fiscal year.

The net debt of Canada on the last day of the fiscal year just closed stood at \$2,463,095,025. At the end of the previous month the net debt was \$2,412,195,107, and on the 31st of March, 1924, it amounted to \$2,409,326,625, consequently a decrease of approximately six millions in the net debt during the year is shown.

### Synthetic Wood Alcohol

Germans Make Motor Fuels From Water Gas

America's \$100,000,000 wood alcohol distillation industry is threatened with extinction by German chemists, it was declared at the meeting of the American Chemical Society in Baltimore.

German chemists are making synthetic methanol, formerly known as wood alcohol, from water gas, and are shipping it in such quantities, it was said, as to arouse fears that the American production of methanol from hardwood will be wiped out.

Another forward step of German science was described by Dr. Franz Fischer, director of the Kaiser Wilhelm Institute at Muelheim-Ruhr, who said that a process closely related to that by which synthetic methanol is produced is being employed to manufacture liquid motor fuels from water gas.

### Stomach Cramps Yield to "Nerviline"

When doled up at midnight with cramps you don't feel like experimenting; what you want is something to remove the cramp. Nothing acts so effectively as Nerviline. Take twenty drops in a little sweetened water, and quick relief will be yours. Nerviline is about five times as strong as most medicines, and because so strong, only a small dose is required to give instant effect. For stomach, gas, fermentation, cramps, etc., Nerviline should be kept in every home. For sure protection, get "Nerviline" to-day. 25c at dealers.

### Tourists in Alberta

The Calgary Automobile Club has estimated that tourists from Eastern Canada and the United States spent more than \$400,000 on necessities alone in Alberta during 1924. This sum does not include estimates of purchases from the Alberta Government liquor commission.

### A Charming

### Reflection Is Obtained by Using Cuticura Soap

Daily, assisted by Cuticura Ointment when required, it keeps the pores active, the skin clear and free from eruptions and the scalp in a healthy hair-growing condition.

Send 2c for Free Book, "Cuticura Soap," "Cuticura Ointment," "Cuticura Cream," "Cuticura Lotion," "Cuticura Shaving Stick," etc.

### SUNDAY SCHOOL LESSON

APRIL 26

#### STEPHEN THE FIRST MARTYR

Golden Text: Be thou faithful unto death, and I will give thee the crown of life.

Lesson: Acts 6:1 to 7:60. Devotional Reading: Psalm 27:7-14.

The Text Explained and Illuminated The Arrest of Stephen, Acts 6:8-15. Jews from everywhere came on annual pilgrimages to the Holy City, and many of them stayed on there permanently. Those from certain regions were numerous enough to have their separate synagogues; among them were the Libertines, probably Jews—or their descendants—who had been taken to Italy by Pompey as slaves and had afterwards received their freedom and been allotted a section in Rome for their residence; Cyrenians and Alexandrians—Jews from Cyrene and Alexandria in Northern Africa; and Jews of Cilicia and Asia, provinces of Asia Minor.

These Greek-speaking Jews hated Stephen, a man full of faith and the Holy Spirit (Acts 6:5), therefore full of grace and power, who wrought great wonders and signs among the people. They disputed with him but came off poorly in argument, for they were no match for the wisdom and the Spirit by which he spoke. Then they had recourse to calumny. They induced men to declare that they had heard Stephen speak blasphemous words against Moses and against God. Contempt of Moses was held to be contempt of God, and an attempt to turn people from devotion to God was punishable with death according to the Jewish law.

### A Smart Suit For Day-Time Wear

A Charmeen or Kool Kaasha is used to develop this good-looking suit, which combines smartness, trimness and utility. It consists of a short coat and two-piece skirt, each complete and separate patterns. The coat, No. 1057, is made along the simple tailored lines so much in vogue. The pattern contains two fronts, one double-breasted as shown in this picture, and the other single-breasted, with cutaway, rounded corners. Coat made in two sizes to fit 32 inches bust. Size 38 requires 2½ yards of 40-inch, or 1½ yards of 54-inch material. The skirt, No. 1057, is a two-piece model slightly gathered at the waist. It may be made with or without the lapels and has side-fastening, both. The skirt is cut in sizes 26 to 34 inches waist, and requires 2½ yards of 40-inch, or 1½ yards of 54-inch material for size 28.

### Ireland Seeks Chinese Trade

Seeking trade with China, the Irish Free State has added one more name to the long list of government commercial representatives domiciled in Shanghai, the commercial metropolis of that vast world market. The new trade commissioner declared that Ireland intends to extend its foreign trade on a large scale during the next few years.

### MOST OLD FOLKS REQUIRE A HEART AND NERVE TONIC

After middle age little sicknesses and ailments seem harder to shake off than formerly as the heart action becomes weak and uncertain and the nerves are not as steady as they were in the younger days.

Now is the time when all aged people who wish to maintain their health and vigor and retain their energy unimpeded should use

### MILBURN'S HEART AND NERVE PILLS

Mrs. M. O'Connor, Whitestone, Ont., writes:—"I have been troubled, most of my life, with shortness of breath, palpitation of the heart, and fainting spells. I was advised, by a friend, to try Milburn's H. & N. Pills, which I did, and at once found relief, and I have never had a really bad spell since. I am 80 years of age and I always keep them in the house, and feel that with their help I will see many years yet. I always recommend them to anyone who is suffering from heart trouble."

For sale at all druggists and dealers. The phrase, "saving the bacon," originated during the civil war in England, when housewives took unusual precautions to save their principal meat dish from soldiers on the march.

Don't forget the Dance after the  
Gyro Nigger Minstrels, on Friday,  
May 8th. The Bon Ton Orchestra  
of Calgary will supply the right  
kind of music.

Better Aerials! Better Results!  
With Summer at hand you'll need  
a good Aerial for best results. So if  
yours is a temporary installation it  
should be changed, and be sure  
there's a Lightning Arrestor in the  
circuit. For help or advice, phone  
or see H. A. BANNISTER.

Work is proceeding apace on the  
new hotel in town, given favorable  
weather, the thirsty ones should  
be able to get some satisfaction by  
about the end of May.

**I.O.O.F. 106th Anniversary.**

Crossfield Lodge No. 42 I.O.O.F.  
held the 106th Anniversary of the  
Order on Sunday afternoon last, in  
the Union Church. The members  
of Justice Rebekah Lodge accom-  
panied the Brothers also a number  
of the members of Airdrie Lodge  
were present. Rev. F. C. McCrae  
conducted the service and preached  
from the Parable of the Good Sa-  
maritan. The service was greatly  
enjoyed by all present and in the  
Lodge room after the service a num-  
ber specially mentioned the excel-  
lent sermon Mr. McCrae had deliv-  
ered. The general opinion was ex-  
pressed that it was one of the best  
Anniversary Services that Crossfield  
Lodge had been privileged to attend  
in a good many years. Some fifty  
or sixty Brothers and Sisters turned  
out and Mr. and Mrs. Geo. Huser  
specially came up from Calgary to  
attend.

**"COMING THROUGH"  
Another "He Man" Role for  
MEIGHAN.**

Thomas Meighan's latest Para-  
mount starring picture, "Coming  
Through," adapted to the screen  
from the novel, "Bed Rock," by  
Jack Belthea, comes to Havens Hall  
on Thursday, May 7th.

The story is a romance of the  
Alabama coal mines and features  
Lila Lee opposite the star, with  
Wallace Berry, Laurence Wheat  
and others at the head of a strong  
supporting cast. "Coming Through"  
marks Miss Lee's—pardon, Mrs.  
James Kirkwood's—return to the  
screen after a year's absence.

If you're a true Meighan fan  
you'll be on hand early to see this  
one. She's a dandy!
